

Bharat Biotech donates REGEN-D® to victims of A.P. gas explosion

Genome Valley, Hyderabad, 1st July 2014 : 18:00 hrs IST

Bharat Biotech donates 500 tubes of REGEN-D® to A.P. Chief Minister's Relief Fund

Bharat Biotech today made a contribution to the A.P. Chief Minister's Relief Fund INR 7.0 lakhs value of REGEN-D®, to aid faster recovery of victims from gas explosion in Nagaram village of E. Godavadi dist A.P. The contribution in kind was made in the presence of the Honourable A.P. Chief Minister, Shri. N. Chandrababu Naidu by Mrs. Suchitra K. Ella, Jt. Managing Director of Bharat Biotech.

“Our heartfelt condolences to the family members of all those who lost their lives in the blaze and our prayers are with the injured. We believe this corporate social initiative will complement the efforts by the A.P. Government to provide relief to the injured in the gas explosion and aid in faster recovery of victims” Suchitra K. Ella, Jt. Managing Director of Bharat Biotech said.

REGEN-D® 60 is an innovative Human Epidermal Growth Factor produced by recombinant DNA technology, which aids in accelerated wound healing for 1st & 2nd degree burns and skin grafts. REGEN-D® 60 has been widely studied, clinically researched and well published. REGEN-D® 60 regenerates skin faster and reduces the healing time, resulting in faster wound healing with significant reduction in secondary infections during recovery from burns.

“Our hearts and minds are with the families of victims. We have world class technologies that can aid in faster recovery of burn victims, right here in Genome Valley Hyderabad. Our goal is to make these products available to people who need it the most” Dr. Krishna M. Ella, Chairman & Managing Director of Bharat Biotech said.

REGEN-D® is being exported to more than 20 countries worldwide, including Turkey, Ukraine, Thailand, Iran, Columbia, Nigeria etc. REGEN-D® has received several awards in recognition of its innovative processes and technologies, most notably from Dept. of Biotechnology, Govt of India; Marico Foundation & Business World etc. REGEN-D® has been patented and published in more than 15 countries, including USA, EU, Brazil, Mexico, South Africa, Hong Kong, Indonesia, Nigeria etc.

About Bharat Biotech

Based in Genome Valley India, Bharat Biotech (www.bharatbiotech.com) is a multidimensional Innovation- oriented biotechnology company specializing in R&D, manufacturing, marketing and distribution of vaccines and biotherapeutics. The core focus of the company is on developing novel health care solutions for region-specific neglected diseases in compliance with Global IPR. Built with an investment of over USD 100 million, Bharat Biotech is the first bio-pharma facility in India to be approved by Korean Food & Drugs administration (KFDA). Innovation at Bharat Biotech has resulted in products such as Revac-B+[®], REGEN-D[®], HNVAC[®], COMVAC5[®], BIOPOLIO[®], INDIRAB[®], TYPBAR TCV[®], BIOHIB[®], JENVAC[®] etc and vaccine candidates against rotavirus, chikungunya, etc. The company has pioneered the development of a novel rotavirus vaccine, the first in India catering to the requirements of developing world populations. Bharat Biotech holds a portfolio of 50 patents and has delivered more than two billion doses of vaccines to over 65 countries.
